PRESIDENTIAL CAMPAIGN IS APPROACHING CLIMAX

Campaign Managers Of Both Parties Are
Sending Out Speakers Through
Middle West.

(SPECIAL TO THE GAZETTE.)

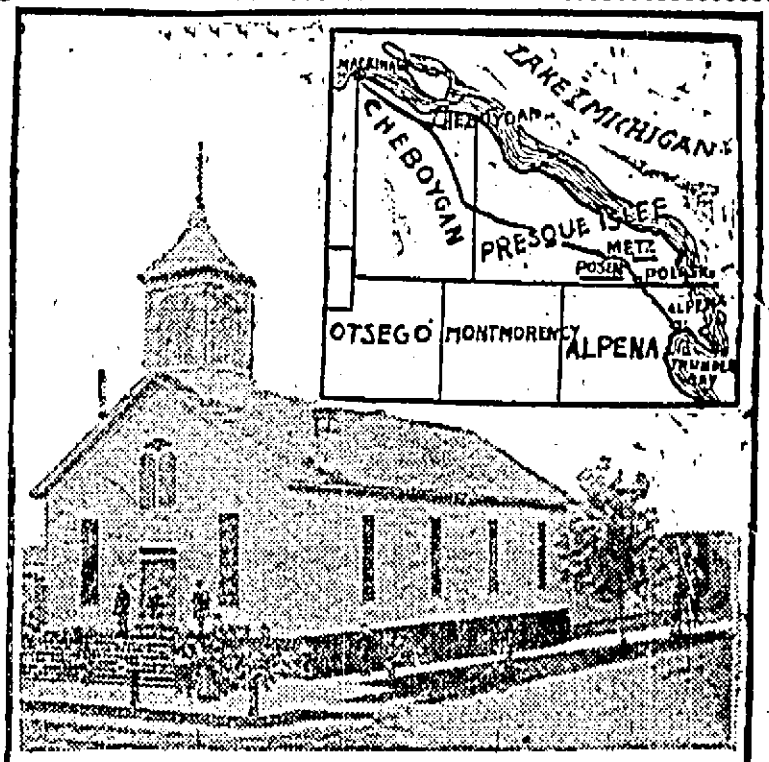

Chicago, Oct. 19.—During the present week the middle west, the great battleground of the presidential contest, will ring with the oratory of the foremost campaign speakers in the country, both republican and democratic. In the consummation of their plans to carry the doubtful states of this section the managers of the Taft and Bryan campaigns are now marshalling their best talent for the fray. The scenes of activity today at the national headquarters of both parties bore evidence of the fact that the campaign is now approaching its climax.

National Chairman Hitchcock returned to Chicago today and immediately began the work of laying the final plans of the campaign. Ohio and Indiana will hear Taft during the last three days of this week. It is contemplated to have him make one more speech in Chicago on the conclusion of his canvass of the Hoosier state, if other arrangements will permit. He will then give the remainder of the campaign to New York city and state, closing his stump tour on the night of November 2 at Youngstown, O.

A newcomer among the republican campaign speakers in this section this week is Secretary of Commerce and Labor Strauss. Senator Joseph M. Dixon of Montana, chairman of the speakers' bureau, has arranged to have Secretary Strauss deliver five speeches in as many large cities during the present week. Tonight he is to be heard in Cleveland and tomorrow night in Indianapolis. He will speak in this city Wednesday, in St. Louis Thursday and in Louisville Friday.

The democratic campaign through the middle west this week promises to be carried forward even more vigorously than that of the republicans. The democratic purpose to bend all their efforts to counteract the influence of the great Taft forces, Hughes and Heywood through this section. The national committee has arranged to have Mr. Bryan speak in Chicago tonight. The presidential candidate is to arrive in the city early this evening from East St. Louis and will address a crowd at the big amphitheatre at the stockyards. During the remainder of the week Mr. Bryan will make some long jumps and according to plans he will cover the larger expanse of country in which he has been heard during any one week of the campaign. Much of the heaviest oratorical artillery on the democratic side will be trained during the week on Indiana and Ohio. In these two states many speakers of national prominence, including several United States senators, will be heard in behalf of the Bryan and Kern ticket.

The special efforts of the democrats to defeat Speaker Cannon for reelection will be carried on with unabated vigor. Samuel Gompers, president of the American Federation of Labor, is coming west again and in an address to be delivered to Chicago workingmen in Orchestra hall tomorrow night the well-known leader who has espoused the Bryan cause will pay his respects to Speaker Cannon and to the republican candidates in general. While here Mr. Gompers will use his influence to have the convention of the Illinois State Federation of Labor, which meets in Peoria tomorrow, adopt strong resolutions condemning Cannon and urging his defeat.

MAP OF DISTRICT BEING SWEEPED BY THE MICHIGAN FIRE AND THE CHURCH AT CATHRO, WHICH IS THE ONLY BUILDING LEFT STANDING AND IN WHICH CITIZENS TOOK SHELTER

Alpena, Mich., Oct. 19.—The most disastrous fire of recent years is raging in northern Michigan. Many lives have been lost and the property loss reaches into the millions.

Metz, Poland, Bolton, Millersburg, Posen and Cathro in Presque Isle county have been completely wiped out except the church at Cathro, which stands among the ashes of a once prosperous hamlet as a lone specter. In this church many took refuge and were saved.

Alpena and Sault Ste. Marie are in imminent peril of destruction, fire having already reached the city limits. Sufferers of all the great loss of life, which cannot be estimated at this time. The entire country is populated by outlying farms and lumber camps and no report has been obtained.

One of the worst disasters occurred just outside this city, when a relief train on board from the burning district with 200 men, women and children, were decimated and burned. Twenty-five bodies have been found and only about 25 of the other survivors located. Nothing is known of the other 250 known to have been on board. A second train has been sent to the scene of the fire with food and medical assistance. It is feared now that many lives were lost at Metz when the train burned, as all avenues of rescue were cut off before midnight. All communication with Posen is cut off and details cannot be obtained.

UPPER RIGHT—MRS. W. F. TUCKER; UPPER LEFT—MRS. LOGAN, MOTHER OF MRS. TUCKER; LOWER RIGHT—COL. W. F. TUCKER

Chicago, Oct. 19.—An army scandal which has attracted national prominence is the now famous Tucker abandonment proceedings. Mrs. Tucker, wife of Col. W. F. Tucker, and her mother, Mrs. Logan, are here in the interests of their case. Colonel Tucker has been removed to Hot Springs and his physical condition is critical.

The case is in some respects unusual. Colonel Tucker was held in high respect by his associates, and up to two years ago, when he was ordered to the Philippines, he had been an affectionate and loving husband. True it is, according to the statements of Mrs. Tucker, that he indulged too freely in drink, but there had been no lack of appreciation of his honor and his family's honor up to the time he met Mrs. Platt in the Philippines. Mrs. Platt, as near as can be ascertained, is the widow of Lieut. Ralph Platt, U. S. A., who before the Spanish war was a lawyer in Grand Island, Neb., where his family was wealthy and prominent. His father was mayor of Grand Island at one time. Lieutenant Platt died several years ago. Upon his death Mrs. Platt undertook to support herself by teaching domestic science in the Philippine public schools under government employ.

Since Mr. Tucker met Mrs. Platt he has not communicated with his family by letter or word of mouth although, according to their reports, they have diligently tried to get an audience with him. His wife and son are grieved and chagrined at his complete change since meeting Mrs. Platt. Some time ago the colonel returned to America and did not notify his wife or family, and they only heard of it through roundabout means. Mrs. Tucker claims to have evidence to show that her husband has been almost continuously with Mrs. Platt since their return. It is known Mrs. Platt was with Mr. Tucker when the summons was served upon him in the abandonment proceedings.

On account of the social standing of the parties involved, the case has attracted much attention, even going so far as to be taken up with the war department. It is stated Mr. Tucker's removal from Mt. Clemens, Mich., to Hot Springs is up to the order of Secretary of War Wright in order to separate him from Mrs. Platt. As soon as Mr. Tucker's health permits, grand jury proceedings will be started against him and extradition papers will be served to bring him back to Chicago.

STRONG SERMON AS TO VISIONS GIVEN SUNDAY

REV. L. A. MCINTYRE TAKES HIS TEXT FROM ACTS.

SHOWS THE REAL MEANING

Depicts Isaiah's Vision and His Purgings by the Seraphims as a Message to Every Christian.

Yesterday morning at the church of the United Brethren, Rev. L. A. McIntyre delivered a powerful and helpful address on "Visions." The text of the sermon was taken from the sixteenth chapter of Acts, the ninth verse:

"And a vision appeared unto Paul in the night. There stood a man of Macedonia, and prayed him, saying, Come over into Macedonia and help us."

In his sermon Rev. McIntyre showed how a person with a real vision of God, such as Paul had, would be willing to do anything for Him in his service.

He told of Jesus taking his disciples high on the Mount and there before their eyes becoming transfigured and speaking with Moses and the other prophets. This was the vision of the prophets and Peter was so affected by it that he wished to remain there and build a tabernacle on the spot, but Christ said, No, the vision was only to give them power, strength and courage in their great work. Then he took them down the hill and they found there a great multitude waiting for him.

Similar to this was the position of the members of the congregation, who had been holding a great and helpful conference. They had been having visions and would like to remain on the mount as it were, but must come back again to the routine work. But it is with new power, strength and courage and with a zeal that will not be abated that they will take up the work again.

He then spoke of the vision of Isaiah, who saw in his dream seraphims standing before and around an altar and by whose purity his soul seemed very unclean. One of the seraphims then took a coal of fire from the altar and touched the lips of Isaiah with it, purging them and making him clean. He then told Isaiah to go and tell the people of the word of God.

The vision of Isaiah should be divided into three parts: first, the vision itself; second, the call, and third, the mission.

To every man and woman who makes a success in this life there must at some time come a vision. Or perhaps there may be many visions, but any person who accomplishes things must build air castles. The man who does not build air castles will not erect any other kind.

The men and women of this world, who may be Christians and may be working for God, but are not accomplishing anything extraordinary, are the ones who have never had a clear vision of Him. Every man who has ever accomplished great things for God has done it because he has had visions and through these God has given him power. Moses was called to Mount Horeb and while he was tending sheep there God made the bush to burn and Moses had a vision. God was in the burning bush and He showed to Moses what he was going to accomplish.

Before Isaiah could accomplish great things he had a vision, a dream as Moses had had.

Isaiah was not a sinner, but he had not brought all his talent to work for God, so God gave him the vision and inspired him with a desire to work. Isaiah's uncleanliness did not lay in any acts that he had done, but in keeping silence when he should have spoken.

Nothing makes one have courage or causes one to do work for God as can be done by the person who has a vision of His glory. No man can face the sin of the world who has not had this experience.

The seraphims which are spoken of in the story of the dream of Isaiah were not and should not be regarded as what we call angels, for they were not angels and were quite different from them. The word seraphim, from

the Greek and Hebrew languages, means a fiery being.

This is what Isaiah saw in the vision. The fire was not the destructive fire, but rather a fire which purified. When Isaiah beheld them he fell on his face and exclaimed that he was unclean. Then one of these fiery beings took a heated stone from the altar and touching the lips of Isaiah cleansed them.

We, too, must have our lips touched and cleansed if we are to work in the cause of God. When Isaiah saw God and it was really God whom he beheld in this vision, he beheld his own weakness. Many who go forth to work for Christ fall in what they have set out to do because they doubt that they are able to do it. But no man who has had a vision and gone out with that in his soul and trusted in God giving him power has ever failed. The only thing that really disallows a line of duty is the call of God for service. This call comes always to those who are fitted for it. There are two calls which they receive from God—one to surrender their lives to Him and one to surrender their lives for Him.

The commission that he gives to go and tell His people, Isaiah received this commission from God, and though God showed to him it would only mean failure. All of us would like to go out and work for God if we knew that our work would be successful, but few of us would like to attempt it, knowing that it would only result in failure.

Isaiah was told that the words he spoke would not be listened to by the people he spoke them to, who did not want to hear it and who would not turn away from their sins. But God gave Isaiah, in the vision, the right spirit so that he felt that if God commanded him to go he would go whether he failed or not. This is the spirit which we should have.

Success in the work of God will not be had unless we are ready and willing for God. In our own city there is a need of men and women who are willing to lay all regard of their own feelings aside and stop scolding and allow God to use them to help in fitting up those who have fallen.

Isaiah was told that the words he spoke would not be listened to by the people he spoke them to, who did not want to hear it and who would not turn away from their sins. But God gave Isaiah, in the vision, the right spirit so that he felt that if God commanded him to go he would go whether he failed or not. This is the spirit which we should have.

DOG GUARDING GOAL.

London, Eng.—An interesting illustration of how much animals enjoy sports of any kind is shown here. The dog football teams are enjoying a contest similar to their college friends game. The rules governing the contest are in every way based on the football rules and the dogs enter into the sport with a vigor equal to that of the university teams. They seem to understand exactly what is wanted and soon become very proficient in every department of the game.

The game is played with a large rubber ball similar to the old association football and the dogs push this over the goal line with their nose. It is very exciting to watch them play and brings out the almost human intelligence of the well trained dogs.

Harmful Cosmetics Being Discarded by Eastern Society Women.

New York druggists report a great feather off in the demand for rouges, cosmetics, lotions and other manufactured "artificialities." Whether this tendency is a part of the movement for the inexpensive simple life, or whether the New York women have awakened to the harmful after-effects of those chemical compounds is not stated. Anyhow, there is a revival of the use of the old-fashioned home preparations, those that have stood the test of time. Here is a recipe for a home-made face wash that a down town druggist filled 3 times in one day: Rose Water, 2 ounces; Epithone, 1 ounce; Cologne Spirits, 1 ounce. To make the face wash out the Epithone in a pint of hot water (not boiling) and after it has dissolved strain and let cool, then add the Rose Water and Cologne Spirits. The daily use of this preparation is absolutely harmless, and there is nothing better than Epithone to soften, whiten and beautify the complexion.

He managed to roll himself off the track in time to escape. His home is at Baraboo and this was his third trip. He was taken to Janesville on the 9 p. m. train, where his arm, which was dislocated, was treated.

Eastern Mountain Spruce

Newman Bros. Piano sounding boards are made of selected eastern mountain spruce, thoroughly seasoned and kiln dried. Since the introduction of the new scale we have increased the size of the sounding boards two inches (vertically), which gives a larger vibrating surface and increases the volume of tone. The ribs extend the entire length of the sounding board and are grooved into frame at ends. We use double ply cross-grained stock for bridges in bass and treble. You will make a great mistake if you do not see the Newman Bros. piano before buying.

RELIEF IS SENT TO FIRE VICTIMS

MICHIGAN IS QUICK TO HELP ITS
STRICKEN PEOPLE.

GOVERNOR ISSUES APPEAL

Detroit Also Adopts Prompt Measures
—General Situation Improved
but Conditions are Pitiful
Among Survivors.

Detroit, Mich., Oct. 10.—Reports from the forest fire district of northern Michigan were fragmentary Sunday, but there were indications of improvement in the general situation so far as imminent danger to life and property was concerned.

Up to the victims who survived the destruction of their homes and villages, conditions are pitiful in the extreme with the likelihood of greater distress and many deaths from exposure in the event of a sudden drop of temperature falling upon the half clothed refugees camped in box cars and open fields.

Relief Measures Taken.

Gov. Fred M. Warner Sunday issued an appeal to the people of Michigan for contributions, and on call of Mayor William H. Thompson of Detroit a special meeting of the common council was held Monday morning to consider the matter of contributing relief. A public meeting also was held in the mayor's office at noon for the same purpose and Bishop Charles D. Williams of the Episcopal diocese of Michigan, who has just returned from the fire district, described conditions as he witnessed them. The Detroit board of commerce held a meeting at the Detroit club Sunday night to arrange the details of shipping a preliminary car load of provisions and bedding north Monday and Gov. Warner directed Adj. Gen. McCurran of the state troops to take the initiative in similar measures at Grand Rapids. The Detroit & Mackinac Railroad company has already sent a dozen car loads of provisions, lumber and hay into the burned district from May City.

Town of Oshtemo Threatened.

President J. D. Hawks of the Detroit & Mackinac railroad received word Sunday that forest fires were seriously threatening the town of Oshtemo, south of Alpena on Thunder bay. Mr. Hawks said he had received no reports from Alpena or Rogers City and he was confident he would have heard something if the situation at those points had not improved.

Quartermaster Gen. W. J. Rogers, of the state troops, who was sent into the burned district to investigate conditions, telegraphed Gov. Warner to say that there was no need of troops, as the fire situation was improved, temporarily at least. The immediate need, Gen. Rogers reported, was for bedding and food for the refugees and fodder for horses and cattle.

Governor's Appeal for Help.

Following is the governor's appeal to the people of Michigan for contributions:

"To the People of Michigan.—The destructive forest fires which have raged over the northern part of the state during the past week and which have been attended with such fearful loss of life and property, have already rendered about five hundred of our people homeless and dependent upon immediate public charity. The prompt relief furnished by the officials of the Detroit & Mackinac Railroad company and others is most commendable, but the loss and suffering are so great and the need for further assistance is so crying that there should be prompt action on the part of the public generally.

"The men, women and children who have narrowly escaped death are shelterless and destitute. Food, clothing, bedding, furniture, money and building material and forage for animals should be donated at once so that the sufferings of these people should be lessened and that none may perish from hunger or exposure. I therefore urge upon the charitable people of this great state, so bountifully blessed with comfort and wealth, to immediately come to the relief of these stricken people. Alpena will be the distributing point. All donations may be sent in care of J. D. Hawks, president of the Detroit & Mackinac railroad, who is giving his personal attention to the relief of the sufferers. I am already assured that the Detroit & Mackinac, the Michigan Central and the Pere Marquette railroads will transport everything free of charge and undoubtedly all the other railroads, whose officials I have not yet been able to see, will do likewise.

"Fred M. Warner, Governor."

Known Dead Are Twenty-Six.

Alpena, Mich., Oct. 10.—Reports from the flame-swept counties in this section of the state indicate improvement in the fire situation. But the necessity for immediate substantial relief for the refugees is hourly becoming greater.

But one fresh report of loss of life came into Alpena Sunday. Henry Hines, his wife and two children are believed to have been cremated on their farm near Catho.

Between Stetson and Rogers City seven more bodies have been found, making a total of 26 lives that are known to have been lost in Presque Isle and Alpena counties since Thursday night.

Rogers City, reported in imminent danger, has been saved. South Rogers is also safe.

BIG CATHEDRAL STARTED

CATHOLICS OF ST. LOUIS LAY
THE CORNER-STONE.

Monsig. Falconio Officiates and Vast
Concourse Attends—Edifice Is
to Cost \$2,000,000.

St. Louis, Oct. 10.—An era of extensive church building in St. Louis culminated Sunday in the laying of the corner-stone of the new Catholic cathedral, which when completed will cost over \$2,000,000; and in the dedication of the Second Baptist church at Kings highway and McPherson avenue, which has just been completed at a cost of \$250,000.

The cathedral ceremonies brought to the city an assemblage of church dignitaries from many parts of the nation and were witnessed by an immense concourse of people, who blocked the streets leading to the cathedral site at Maryland and Newstead avenues, and made them impassable for the parade that was a striking feature of the day.

Not only was the day made memorable by the laying of the corner-stone of a cathedral that when completed is to rank among the ten largest in the world, but it was also the seventy-fourth anniversary of the dedication of the old cathedral near the river.

The parade started about two o'clock from Pine and Belmont streets, and

Archbishop Falconio.

half an hour later reached the cathedral site. Meanwhile the seven archbishops, the 13 bishops, and the 500 clergy, scholars, and seminarians who took part in the ceremonies had marched to the reviewing stand on the cathedral site.

The parade was not more than half over when Archbishop Dionardo Falconio, papal delegate to the United States, began the ceremony of laying the corner-stone. When the last marcher had passed the crowd surged around a temporary platform from which Archbishop Glennon of St. Louis read a message of congratulation from President Roosevelt and delivered a discourse.

A massive and electrically illumined cross, high on a scaffold, threw its light over the thousands of listeners.

METHODIST BOARDS TO MEET.

Appropriations of Over \$4,000,000 are
to be Made.

New York, Oct. 10.—The annual meetings of the great administrative boards of the Methodist Episcopal church, these boards consisting of bishops, officials, ministers and lay members, are to be held in the three weeks beginning October 21. The appropriations which are to be made for the support of the benevolent interests of the denomination during 1909 will aggregate more than \$4,000,000. The group of important meetings includes the semi-annual meeting of the bishops and two important conventions, one of the Methodist Episcopal laymen's missionary movement and the other of the Methodist Federation for Social Service.

KING OF ITALY CONSENTS.

Agrees to Let Abruzzi Marry Miss
Katherine Elkins.

Turin, Oct. 10.—Although no official announcement has been given out with reference to the marriage of the duke of the Abruzzi and Miss Katherine Elkins, it is asserted that the king has definitely given his consent. As a consequence the duke is preparing to leave for the United States. It is likely that he will proceed via Havre. The newspapers, in the belief that the marriage is certain, say that Miss Elkins can now be considered as an Italian royal princess, while after her marriage she will have the position and honors due her rank as a member of the royal family.

Drought Helps Missouri Farmers.

Kennett City, Mo., Oct. 10.—All drought records here have been broken. In the past 48 days less than one-third of an inch of rain has fallen. Except that springs and wells have gone dry, the rainless weather has been beneficial for corn and hay ripened perfectly, and there has not yet been a destructive frost.

PATRICK'S GRAVE CHARGE

SENSATIONAL STATEMENTS IN
CONVICT'S BRIEF.

Base for His Claim of Illegal Con-
viction—Sings Sing Prison Manage-
ment Accused.

Washington, Oct. 10.—The motion of Albert T. Patrick, the New York lawyer who is serving a life sentence in the state prison at Sing Sing on the charge of murdering the Texas millionaire, Rice, for an appeal from the United States circuit court of New York, denying him a writ of habeas corpus, and which is supposed to have been prepared by Patrick himself, was ready to be formally presented to the supreme court of the United States Monday.

Patrick's brief accompanying the motion is couched in strong language, and some of the accusations are sensational to a degree. He declares that he is in prison as a result of the arbitrary exercise of power by the governor of New York, who was then Mr. Higgins; that the court which tried his case was without jurisdiction, and hence that he was illegally convicted. He calls attention to the division in the New York court of appeals in his case, says that Justice O'Brien in the dissenting opinion held that conviction, having been procured by an unfair trial, was not warranted by law.

He gives several reasons for not supplying a complete record in the case, one of which is that the official record is false.

Patrick also makes grave charges against the management of the Sing Sing prison. Alleging that he is suffering from a complication of grave diseases, he says that he cannot obtain efficient and sympathetic medical treatment in the prison.

AWFUL MASSACRES BY TURKS.

Soldiers of Sultan Put Armenian Vil-
lagers to Sword.

Berlin, Oct. 10.—There have been frightful massacres in Armenia, according to the Constantinople correspondent of the Berliner Tageblatt.

This paper publishes a dispatch from the Turkish capital which says: "Armenians in Vran-Shehr have been massacred by Turkish troops. The women and children have been subjected to fearful treatment."

"The troops were sent to Vran-Shehr to overawe the mountain townspeople, two-thirds of whom are Armenians, and they at once began to murder and plunder. They are said to have completely overrun the city."

The village of Vran-Shehr is in the heart of Turkish Armenia, between Konia and Karsarsh.

LIEUT. EVANS IS GUILTY.

Losses 150 Numbers and Will be Pub-
licly Reprimanded.

Yokohama, Oct. 10.—Lieut. Frank T. Evans of the battleship Louisiana, who recently was court-martialed on charges of absconding himself from his post while officer of the deck, disrespected by his superior officer and intoxication, has been found guilty of the two former charges. Rear Admiral Sperry received the papers with the battleships were at Manila and has just announced his verdict.

The sentences pronounced provides that Lieut. Evans shall lose 150 numbers and shall be publicly reprimanded. The commander-in-chief adds that in his opinion the sentence is inadequate, but he has approved it in order that Evans shall not entirely escape punishment.

German Balloon Picked Up at Sea and

Yarmouth, England, Oct. 10.—The German balloon Hergesell has been picked up in the North sea. There was, however, no sign of the occupants, and the two aeronautes are believed to have perished.

The Hergesell was found floating

half deflated 100 miles northwest of Helsingland by the Norwegian steamer Nadded, and brought here.

Cincinnati Capitalist Dead.

Cincinnati, Oct. 10.—Hiram Harper Peck, 69 years of age, a leading capitalist of this city, died at his home Sunday morning of paralysis. His illness was indirectly caused by the Japanese earthquake of some months ago. Mr. Peck was in Japan at that time, and the physicians say he never recovered from the shock.

William Laurie, Indianapolis, Dies.

Indianapolis, Ind., Oct. 10.—William Laurie, a prominent merchant of Indianapolis, died at his residence here Sunday of nervous prostration. He had been in the dry goods business in this city for the past 40 years.

Woman Teacher Is a Suicide.

Decatur, Ill., Oct. 10.—Miss Anna Carson, a teacher in the Urbana public schools, came to Decatur and committed suicide by shooting herself in the head. The body was found in a field near Decatur Sunday.

Father and Son Drowned.

Detroit, Mich., Oct. 10.—Geddieh Bruder and his little son Raymond were drowned in the Detroit river Sunday evening off Swan street when their skiff was swamped by waves from a passing steamer.

Woman Burned to Death.

Schell, W. Va., Oct. 10.—Mrs. John A. Blackburn was burned to death near her home Sunday while fighting forest fires.

FAIR PLAY

"The Champion of Fair Play," a

Journal devoted to the interests of the

retail liquor trade, is the name of a

little paper published in Chicago. In

a recent issue the Gazette is taken to

task for an editorial on "How It

Works," in which was quoted an article

sent out by the Anti-Saloon League

referring to conditions under local

option in Paris, Illinois, in which the

mayor, Ed. H. McCullough, was made

to say several things about the city,

favorable to the reform movement.

"The Champion of Fair Play" prints

the story with the following answer:

"Of course this sounds very nice,

and some strong-lunged preacher will

tell it for a fact, but the truth is that

Paris has had only six months of local

option and that Ed. H. McCullough,

whoever he may be, is certainly not

mayor of Paris.

"A very prominent citizen of Paris

sends us the following:

"I have your favor of the 9th with

enclosed press clipping entitled "How

It Works" and as regards this article

wish to state that the facts therein

stated in no wise apply to this city.

"In the first instance, we have had

local option here for a period since

May, and, moreover, the present in-

cumbent of the mayor's office is Dr. T.

C. McCord. The population of this

city has never exceeded twelve thou-

sand souls and many of the old vice

are still with us.

"The police force has been reduced,

which the county was constrained to

do, owing to the material reduction

in the amount of the city's income.

"All public improvements, not al-

ready contracted for, have not even

been considered by the 'powers that

be' and this action is occasioned by

the falling off in the city's revenue."

Of course the Janesville Gazette will

please copy."

Of course the Gazette will copy, for

the paper believes in fair play, but

the "Champion" must recognize the

fact that the law and order movement

is more than a spasmodic prohibition

effort. It has come to stay because it

appeals to all classes of law-respect-

ing and law-abiding citizens. It hits

the saloon business harder than any

other business, because there is more

lawlessness connected with it.

"The 'Paris' referred to was prob-

ably located in some other state, but

if the law and order sentiment in Pa-

ris, Illinois, was strong enough to adopt

a no-license law, it is strong enough

to enforce it, and the citizens have no

occasion to worry about needed im-

provements being long neglected.

There is no tax so heavy as the tax

for drink, and when this is diverted

into other channels there is no lack

of money for city betterment.

THE PLEA OF THE DODGER

One has only to read the speeches delivered by Mr. Bryan within the last two weeks to discover that he has dodged and deserted all the radical issues with which he justified his frenzied campaign. When he first proclaimed his radical policies they created a certain excitement which he mistook for approval, but the excitement has all passed away and in its place there has arisen a serious calm in which the people have come to realize that those policies are not only repugnant to the national conscience, but dangerous to public interests. With his accustomed shiftiness Mr. Bryan was quick to recognize this sweeping revolution of popular feeling, and since then he has persistently dodged the issues which at the outset he announced as paramount.

Mr. Bryan is dodging his record on the money question. He dare not either affirm or repudiate his utterances on that issue in 1896 and 1900.

Mr. Bryan is dodging his record on the tariff question. He is a free trader, but he does not attempt to defend his work in helping to prepare the Wilson-Gorman tariff act of 1894, which a democratic president denounced as "a creature of perfidy and dishonor."

Mr. Bryan is dodging his record on the question of government ownership of railroads. He openly declared for government ownership in a speech in Madison Square Garden, New York, August 30, 1906, but he dare not repeat that declaration in the present campaign.

Mr. Bryan is dodging his record on the issue of the Philippines. He has declared that the United States had no right to acquire and has no right to retain the islands, but he dare not repeat the utterance this year.

In his recent speeches Mr. Bryan has been absolutely silent on the question of a government guarantee for bank deposits. He has had nothing to say in support of his scheme to enact laws in restraint of trade by stipulating that no business organizations shall control more than 50 per cent of the output of a given commodity. He is on record as favoring both of those radical projects, but he dare not openly advocate them before the business community.

In short, Mr. Bryan has run away from all the issues which he most strenuously upheld at the beginning of the campaign, and his whole plan for the favor of the people resolves itself down to two simple points, namely: First, that he is no more lacking in experience in executive affairs than were Washington, Jackson and Lincoln when they were elected to the presidency. Second, that in the event of his election he could do no harm, for the reason that there will be a republican senate to guard against unwelcome appointments and other follies on his part.

This is the pitiable plea of a candidate who is dodging the very issues which he forced upon the people. He asks them to recognize his inexperience as a point in his favor and as a qualification for office. He pleads that if seated in the White House he could do no wrong even if he wanted to, because the senate would not allow him! On the same principle an incendiary might plead for permission to run at large in the community merely on the ground that the local fire department happened to be in particularly efficient condition.

HOME MADE BREAD

Home made bread is what we offer to the public. We use dry yeast in making our bread which makes it better. Our bread can be kept a week, yet we bake it fresh every day. By using dry yeast, bread will retain its moisture. It seems to have been the plan of all bakers to make bread, particularly light, and in order to get it very light, considerable "compressed" yeast is used. The general trouble being that baker's bread is too light and often tastes of yeast. Our bread has body to it. It is light, but not too light and never tastes of yeast.

We do not deliver bread and therefore it is not handled by anybody but the baker until it is wrapped up for you.

Did you ever stop to think how many hands the ordinary bread goes through before it reaches you and then did you ever notice the condition of the hands which deliver it to you.

These are little advantages you get in buying our home made bread and we are sure you will like it. The best way for you to decide, however, is to try a loaf yourself. It is five cents a loaf.

Consumption and Dentistry

It is the general accepted belief among professional medical men that consumption comes from infections through the stomach as much as from the lungs only.

We are continually breathing in millions of disease germs.

If teeth are decayed, these germs lodge in the decayed spots and multiply by the thousands. They then pour into the stomach and multiply still faster.

This is true not only of the tubercular germ, but of all other disease germs, and it is well to see that your teeth are in good shape so as to prevent sickness.

The teeth are of great importance to your health—

Probably more than you ever thought.

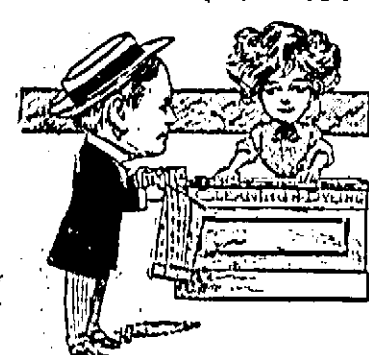

It's a long story, but I will be glad to have you call for a pleasant visit at any time and talk over the subject with you.

I'll examine your teeth if you wish and tell you how much it will cost to put your mouth in perfect order. You need not feel obliged to have the work done at once.

FREIGHTS COLLIDE;
NO ONE WAS HURT

St. Paul and North-Western Trains in Smashup at Watertown Junction Saturday.

Saturday afternoon, an extra freight train on the North-Western road ran into a freight train on the Chicago, Milwaukee & St. Paul road at the crossing at Watertown Junction. The North-Western train was double-headed and the head engine which struck the other train was badly damaged. Several freight cars were also demolished and both engine and cars were turned over. The crew in charge of the head engine were Janesville men, Louis Dunwiddie at the throttle and Hugo Kling. No one was injured in the wreck. The head engine, number 668, went out of Janesville Saturday on its way to Fond du Lac, having just come out of the Chicago repair shop.

EIGHTEEN MONTHS IN PRISON FOR DORSEY

Pleading Guilty This Afternoon to Charge of Receiving Stolen Goods—Gale's Trial Set for Monday.

In municipal court this afternoon, Albert Dorsey waived examination and pleaded guilty to a charge of receiving property stolen from Herman Poschke, who was held up Saturday night, Oct. 10. When asked whether he had anything to say by way of defense, Dorsey said he had nothing to say and could offer nothing beyond the statement that he was intoxicated at the time and did not realize what he was doing. He denied that he had in any way assisted in the hold-up. Judge Elford said that the court, in determining his punishment, would take into consideration the fact that he had given the officers information which enabled them to make another arrest and the further fact that he had saved the State the expense of a trial by pleading guilty. Eighteen months in the state's prison at Waupun was the sentence imposed. This will be Dorsey's second term behind prison bars. He was sent to Waupun on April 30, 1907, to serve one year. Janesville, who is alleged by Dorsey to have played the role of highway man, waived examination and his trial was set for next Monday morning at 10 o'clock. Bail was fixed at \$1,000 and being unable to furnish the bonds, he will have to remain in the county jail until that time. Gale appears to be quite confident that his father will come to his rescue and obtain an attorney. His brother, William Gale, was here to see him today.

CURRENT ITEMS.

Bicycle Stolen: A new bicycle belonging to Bert Schaller and left standing in front of Carl Divil's store on West Milwaukee street Saturday evening, was stolen by some sneak-thief. One of the West Side firemen saw a youth about 22 years old take the wheel but supposed that he had borrowed it.

J. H. Dower Hurt: C. & N. W. Conductor J. H. Dower sustained a bad fall on the depot platform at La Crosse, immediately after the arrival of his train from Elroy on Saturday, and the result of his fall was a badly torn leg. He will not recover full use of the injured limb for some time. This was the first time in forty years' service that Mr. Dower had met with an accident.

Police Horse on Duty Again: "Boh," the police patrol wagon horse which was temporarily retired from service on account of lameness, is on duty again. The animal is not yet in first class condition.

Commercial Club Dance: About twenty-five couples enjoyed the first of the series of Commercial Club dances at East Side Odd Fellows' hall Saturday evening.

Is Improving: Prof. Vroman of the high school faculty, who has been seriously ill with appendicitis, was operated on Saturday afternoon at the Mercy hospital. His condition today was considerably improved.

One Year for Sharp: Harry Sharp pleaded guilty to a charge of stealing a buffalo robe in the Beloit municipal court today and was sent to prison for one year.

Stopped Runaway Horse: On West Milwaukee street this morning a young farmer stopped a runaway horse in a most spectacular fashion. Hearing the clatter of hoofs from the River street corner, he ran out on the pavement and as the horse dashed by he leaped over the wheels and seized the reins. With his hold he projected himself into the air in the twinkling of an eye and had scrambled to his knees and was pulling in the horse in less time than it takes to tell it. The feat was watched with breathless interest by a large throng of bystanders. What the man's name might be could not be learned. The robe apparently belonged to him as he drove it back onto River street and left town not long thereafter.

TOBACCO ACREAGE NOW DECREASING

While Amount of Land Devoted to Raising Sugar Beets is Growing.

Figures compiled from the returns made by the assessors of the county indicate that while the amount of land devoted to tobacco has declined, that planted to sugar beets has correspondingly increased. These statistics were gathered in May and give the intended acreage rather than the actual. They are, however, the best information concerning these crops obtainable.

The following give the acreage of the two years:

The Younger Set

By ROBERT W. CHAMBERS.
Author of "The Fighting Chance," Etc.

"How did it happen, Alice?" he asked, with a cold curiosity that chilled her. "How did it come about, wretched as we seemed to be together, unhappy, incapable of understanding each other?"

"Phil! There were days!"—
He raised his eyes.
"You speak only of the unhappy ones," she said. "But there were moments!"—
"Yes, I know it, and so I ask you why?"

"Phil, I don't know. There was that last bitter quarrel—the night you left for Lays after the dance, I—it all grew suddenly intolerable. You seemed so horribly unreal—everything seemed unreal in that ghastly city—your, I, our marriage of crazy impulses—the people, the sunlight, the deathly odors, the torturing, endless creak of the punkie. It was not a question of—of love, of anger, of hate. I tell you I was stunned—I had no emotions com-

"I have your photograph," he said, "and you or myself—after that last scene—only a stupor, blind necessity to get away, a groping instinct to move toward home—to make my way home and be rid forever of the dream that dragged me! And then—and then!"

"To come," said Selwyn very quietly. "Go on."

But she had nothing more to say. "Alice?"

She shook her head, closing her eyes.
"Little girl—oh, little girl," he said softly, the old familiar phrase finding its way to his lips—and she trembled slightly—"was there no other way but that? Had marriage made the world such a living hell for you that there was no other way but that?"

"Phil, I helped to make it a hell."

"Yes—because I was pitifully inadequate to design anything better for us. I didn't know how. I didn't understand, I, the architect of our future—failed."

"It was worse than that, Phil. 'We'—who looked blindly at him—"we had yet to learn what love might be. We did not know. If we could have waited—only waited—perhaps—because there were moments!"—She flushed crimson.

"I could not make you love me," he repeated. "I did not know how."

"Because you yourself had not learned how. But—at times—now looking back to it—I think I think we were very near to it—at moments. And then that dreadful dream closed down on us again. And then—the end."

For a long while they sat in silence. Mrs. Ruthven's white face now covered her face. At last the carriage stopped.

As he sprang to the curb he became aware of another vehicle standing in front of the house, a cab, from which Mrs. Ruthven's maid descended.

"What is she doing here?" he asked, turning in astonishment to Mrs. Ruthven.

"Phil," she said in a low voice, "I know you had taken this place. Gerald told me. Forgive me, but when I saw you under the evening light came to me in a flash what to do. And I've done it. Are you sorry?"

"No. Did Gerald tell you that I had taken this place?"

"Yes, I asked him."

Selwyn looked at her gravely, and she looked him very steadily in the eyes.

"Before I go may I say one more word?" he asked gently.

"Yes, if you please. Is it about Gerald?"

"Yes. Don't let him gamble. You saw the signature on that check?"

"Yes, Phil."

"Then you understand. Don't let him do it again."

"No. And—Phil?"

"What?"

"That check is deposited to your credit—with the rest. I have never dreamed of using it. Her checks were all right, but with shame this time. You will have to accept it, Alice."

"I cannot."

"You must. Don't you see you will affront Gerald? He has repaid me. That check is not mine, nor is it his."

"I can't take it," she said, with a shudder. "What shall I do with it?"

"There are ways—hospitals, if you care to. Good night, child."

She stretched out her gloved arm to him. He took her hand very gently and retained it while he spoke.

"I wish you happiness," he said. "I wish you forgiveness."

"Give me mine, then."

"Yes, if there is anything to forgive. Good night."

"Good night, boy," she gasped. He turned slowly, quivering under

the familiar name. Her maid, standing in the snow, moved forward, and he motioned her to enter the brougham. "Home," he said unthinkingly and stood there very still for a minute or two, even after the carriage had wheeled away into the storm. Then, looking up at the house, he felt for his keys, but a sudden horror of being alone arrested him, and he stepped back, calling out to his cabman, who was already turning his horse's head: "Wait a moment. I think I'll drive back to Mrs. Gerard's. And take your time."

Chapter 6

"I was still early—looking a quarter of an hour to midnight—when Selwyn arrived home. Nina had retired, but Austin sat in the library, abstractedly plodding through the last chapters of a brand new novel.

"This is a wretched excuse for sitting up," he yawned, laying the book flat on the table, but still open. "I ought never to be trusted alone with my book." Then he removed his reading glasses, yawned again and surveyed Selwyn from head to foot.

"Very pretty," he said. "Well, how are the yellow ones, Phil? Or was it all debatable and slop twiddle?"

"Few from the cradle, but bunches were arriving for the dance as I left."

"Eileen went at half past 11."

"I didn't know she was going," said Selwyn, surprised.

"She didn't want you to. The playful kitten business, you know—frisks apropos of nothing to frisk about. But we all fancied you'd stay for the dance."

"He yawned mightily and gazed at Selwyn with ruddy gravity.

"Which?" he inquired.

"Cigar?" mildly urgent.

"No, thanks."

"But?"

"I think so. But don't wait for me, Austin. Is that the evening paper?"

Where is St. Paul?"

Selwyn unfolded the paper. So his brother-in-law moved ponderously away, yawning mightily at every heavy stride, and the younger man settled back in his chair, a fragrant cigar balanced between his strong, slim fingers, one leg dropped loosely over the other. After awhile the newspaper fell to the floor.

He sat there without moving for a long time. His cigar, burning close, had gone out. The fire having burned low, he rose, laid a pair of heavy legs across the coals, dragged his chair to the hearth and settled down in it deeply.

Long after his cigar burned bitter he sat with eyes fixed on the blaze. When the flames at last began to flicker and subside his lids fluttered, then drooped, but he had lost all reckoning of time when he opened them again to find Miss Erroll in furs and ball gown kneeling on the hearth and laying a log across the andirons.

"Upon my word!" he murmured, confused; then, rising quickly: "Is that you, Miss Erroll? What time is it?"

"Four o'clock in the morning, Captain Selwyn," she said, straightening up to her full height. "This room is icy. Are you frozen?"

Chilled through, he stood looking about in a dazed way, incredulous of the hour and of his own slumber.

"I don't know how I happened to do it," he muttered, dazed by his plight.

"I reminded the fire for your benefit," she said. "You had better use it before you retire." And she seated herself in the armchair, stretching out

Craig.

her ungloved hands to the blaze, smooth, innocent hands, so soft, so amazingly fresh and white.

He moved a step forward into the warmth, stood a moment, then reached forward for a chair and drew it up beside hers.

"Do you mean to say you are not sleepy?" he asked.

"No, not in the least. I will be tomorrow, though."

"Did you have a good time? You danced a lot, I dare say," he ventured.

"Yes—a lot," studying the floor.

"Decent partners?"

"Oh, yes."

"Who was there?"

She looked up at him. "You were not there," she said, smiling.

WAR IN BALKANS HAS BEEN AVERTED

TURKEY'S MOBILIZATION ORDER IS CHECK TO BULGARIA.

PROVOCATION IS STOPPED

Both Countries Formally Declare Their Intentions Are Peaceful—Quick Diplomatic Work Alone Prevents Hostilities.

Constantinople, Oct. 19.—The report that the mobilization of the Turkish troops had been ordered is unfounded. Presumably it arose through the fact that certain battalions of the Anatolian reserves attached to the Saloniki and Adrianople army corps were convoked for the maneuvers in the native districts, and that three battalions were ordered to Constantinople from Macedonia for police service in the capital, these being replaced by an equal number of Regia from Smyrna.

Deny War Is Imminent.
London, Oct. 19.—The Turkish ambassador and the Bulgarian chargé d'affaires Sunday emphatically denied the report that war was imminent between the two countries. The latter said:

"I have positive information that no more troops are being mobilized in Bulgaria at this time than would have been mobilized if no dispute with Turkey had occurred."

The Turkish ambassador said: "My government has not departed from the slightest degree from the waiting policy which it has followed since the delicate situation was thrust upon it, and has taken no steps of a provocative character."

Bulgarian Move Misinterpreted.
Sofia, Oct. 19.—The mobilization of Turkey's Third army corps in Macedonia is regarded here as due to a mistake on Bulgaria's part in calling out three series of reservists. Some days ago the government summoned to the colors 15,000 conscripts belonging to the same series, who, for various reasons, had been relieved from service. These men were to join the army on October 19 to undergo a course of elementary training for enlistment. Apparently the Turkish government interpreted this as a grand levy and Turkey's nervousness is ascribed to this cause.

On hearing of the bad effect the call had upon Turkey and the other powers, the Bulgarian government countermanded the proposed enlistment.

The ministers profess serene confidence in the maintenance of peace. Hostilities Barely Averted.
Paris, Oct. 19.—Bulgaria has backed down, according to Nissem Pasha, the Turkish ambassador, and not only has the probability of war, which appeared imminent Saturday night, been eliminated, but an understanding between Bulgaria and Turkey is in sight. The ambassador Sunday practically admitted that Saturday the two countries were on the verge of war and explained that, while his denial of the mobilization of the Turkish troops was literally true, it was equally true that mobilization had been previously ordered and then suspended.

To France largely belongs the honor of opening the way for an understanding between Turkey and Bulgaria before it was too late. From official sources the story is learned of how the crisis was averted at Constantinople. On Friday night a confidential report reached the porte from Sofia that the Bulgarian cabinet was about to resign and would be succeeded by the council for national defense. This was interpreted as a preliminary move to a declaration of war. The Turkish cabinet forthwith was summoned. It deliberated throughout the night and decided not only to order the mobilization of the troops immediately in Asia Minor, but to complete the mobilization in Macedonia.

French Diplomats Work Quickly.
The French ambassador, M. Constant, was apprised of this decision at two o'clock on Saturday afternoon, and by urgent telegrams informed M. Pichon, the French foreign minister, of the situation. The French foreign office in turn notified M. Paleologue, the French diplomatic agent at Sofia, the result being that at five o'clock, when M. Constant called upon Khalil Pasha, the grand vizier, to demand an explanation of Turkey's action, he had the pacific assurances of Bulgaria in his pocket. M. Constant told the grand vizier that the displacement of troops certainly would be considered a hostile act by Bulgaria and undoubtedly would be followed immediately by an invasion of Bulgarian troops across the frontier. He was convinced that Khalil Pasha and Czar Ferdinand were sincerely opposed to war and, moreover, he was able to give confident assurances regarding Bulgaria's attitude. The Turkish cabinet thereupon reassessed immediately and the order for the mobilization was countermanded.

Three Quakes in California.
Salt Lake, Cal., Oct. 19.—Three slight earthquake shocks were felt here Sunday. The first was felt at 12:22 a. m. and the last at 4:39 p. m. No damage resulted. The shocks were also felt at Hollister.

Santa Fe Shops Burned.
Alamogordo, Tex., Oct. 19.—Fire early Sunday morning destroyed the Santa Fe roadside and shops, entailing a loss of \$200,000.
